

Escrow Services

We provide a wide range of services as an independent escrow agent regarding safe custody and holding of assets, documents or data storage devices. Our expertise ensures security and efficient procedures at attractive terms and conditions.

How We Assist You

Safety always comes first; whether we, as an independent third party, hold financial assets for you in connection with the divestiture of a company to safeguard warrant claims, or whether you deposit with us, jointly with other persons, something of value to you.

Together with you or your advisors, we draft an escrow agreement tailored to your needs, assist you in choosing a custodian bank and in completing the bank formalities.

Your Advantages

With our longstanding experience we are able to rapidly draft escrow agreements based on our standards and tailor them to your individual needs. Our internal procedures are well established and efficient.

Our close collaboration with various banks allows us to negotiate advantageous conditions. You decide whether the assets should be invested for a fixed term or managed actively by our asset managers. So that you save costs, achieve higher returns and are free to tackle your next project.

Our Services

We provide services for cash and bankable securities escrows, share escrows as well as document resp. data storage device escrows. We also offer escrow services in other areas according to your specific needs.
